This template can be used for multiple purposes:

- It enables schools to effectively plan their use of the Primary PE and sport premium
- It helps schools to meet the requirements (as set out in guidance) to publish information on their Primary PE and sport premium
- It will be an effective document to support Ofsted inspections enabling schools to evidence progress in Physical Education (PE) and evidence swimming attainment, which forms part of the PE National Curriculum. We would recommend schools consider the Intent, Implementation and Impact of any spend, as examined within the Education Inspection Framework.

It is important that your grant is used effectively and based on school need.

Schools must use the funding to make **additional and sustainable improvements** to the quality of the PE, School Sport and Physical Activity (PESSPA) they offer. This means that you should use the Primary PE and sport premium to:

- Build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years
- Develop or add to the PESSPA activities that your school already offers.

**The Primary PE and sport premium should not be used to fund capital spend projects; the school's core budget should fund these. Further detail on capital expenditure can be found in the updated [Primary PE and sport premium guidance](#).**

The Primary PE and sport premium guidance outlines 5 key priorities that funding should be used towards. It is not necessary that spending has to meet all the key priorities, you should select the priorities that you aim to use any funding towards.

Although completing this template is not a requirement for schools, schools are required to publish details of how they spend this funding. Schools must also outline what the impact this funding has had on pupils' PE and sport participation and attainment and how any spending will be sustainable in the future. **All funding must be spent by 31st July 2024.**

The Department for Education has worked closely with the Association for Physical Education (afPE) and the Youth Sport Trust (YST) to develop this template and encourages schools to use it. This template is an effective way of meeting the reporting requirements of the Primary PE and sport premium.

## Review of last year's spend and key achievements (2022/2023)

We recommend you start by reflecting on the impact of current provision and reviewing your previous spend.

# Swimming Data

Meeting National Curriculum requirements for swimming and water safety. **2023/2024**

Priority should always be given to ensuring that pupils can perform safe self-rescue even if they do not fully meet the first two requirements of the National Curriculum programme of study

<u>Question</u>	<u>Stats:</u>	<u>Further context</u> <u>Relative to local challenges</u>
What percentage of your current Year 6 cohort can swim competently, confidently and proficiently over a distance of at least 25 metres?	53%	This cohort had school swimming lessons in Year 4. We are a three-form entry school so pupils can only swim for one term in year. 28% of this cohort met NC requirements for swimming in Year 4. Only 8% of this cohort continue to have private swimming lessons outside of school.
What percentage of your current Year 6 cohort can use a range of strokes effectively [for example, front crawl, backstroke and breaststroke]?	53%	
What percentage of your current Year 6 cohort are able to perform safe self-rescue in different water-based situations?	63%	First year of using 'Water Smart' initiative. Classroom based activities to provide pupils with further water safety knowledge in different water-based situations. Data gathered from Year 4 water safety lesson, in addition to pre-unit quiz and post-unit quiz.
If your schools swimming data is below national expectation, you can choose to use the Primary PE and sport premium to provide additional top-up sessions for those pupils that did not meet National Curriculum requirements after the completion of core lessons. Have you done this?	No	School is looking to provide 'top-up' swimming for those pupils who did not meet NC after core lessons next academic year, if we can get access to additional swim slots.
Have you provided CPD to improve the knowledge and confidence of staff to be able to teach swimming and water safety?	Yes	School is now using 'Water Smart schools' initiative; water safety is taught explicitly in EYFS, Year 2, Year 4 and Year 6. This is in addition to the school swimming lessons provided in Year 4.
