

Monday 8th December

Year 1 Space Day January 2026

Dear Parents/Carers

In the spring term, our Year 1 topic will be Moon Zoom. To start our new topic and capture the children's imagination, we will be holding a Space Day on Wednesday 7 January 2026. During this day, the children will take part in a range of Space activities to launch our topic!

On Thursday 8th January, the children may dress up. This can include space costumes, face paint and small props such as alien glasses, headbands and hats. Children may dress up as aliens, stars, spacemen, galaxies, moons or plants. Characters such as Buzz Lightyear or Wall-e would also be acceptable.

Please ensure children are not wearing any nail varnish or coloured hairspray. In addition, the costumes and shoes need to be suitable for a day at school, bearing in mind cold/wet weather. Finally, please no lightsabers or similar props as these are too big for school.

Please see pictures below for some inspiration!

Yours sincerely,
Mrs Morgan
